Large Generator Interconnection Queue Cluster Window Notice

In accordance with the provisions set forth in Section 4.2 if Attachment O (LGIP) of APS' Open Access Transmission Tariff, APS has elected to evaluate Large Generator Interconnection Requests utilizing clustering, for the purpose of conducting the Interconnection System Impact Study. APS' annual Queue Cluster Windows shall be as follows:

April 1st through September 30th
October 1st through March 31st

This Notice is Effective for all new customers with a queue position of April 1, 2012 or later.
