

ATTACHMENT K and NETWORK OPERATING COMMITTEE MEETING DECEMBER 14, 2012

Please take notice that Avista Corporation will hold its Attachment K Local Planning Process "Year Two" Local Transmission Plan Update Meeting ("Meeting #3") on December 14, 2012 in the Avista corporate headquarters building at 1411 East Mission Avenue, Spokane, Washington. The meeting will take place starting at 9:30 am until all required material has been covered. All customers and interested persons are invited to attend. The 2012 Local Planning Report Update has been posted on the Avista OASIS under System Planning/Studies -> Attachment K Materials folder and may be available by email (subject to confidentiality requirements).

This year's Attachment K meeting will be held in conjunction with Avista's Network Operating Committee meeting. The Network Operating Committee meeting will contain more information applicable to Avista's Network Intergration Transmission Service customers and Interconnection Customers, and is expected to begin around 10:30 am. Participation will be limited to current Network or Native Load transmission customers or Interconnection Customers.

Attendees are requested to RSVP, with number of participants, by sending an email referencing Attachment K Meeting to transmission.services@avistacorp.com prior to the meeting. Please feel free to contact Kenneth Dillon at (509) 495-4436 or kenny.dillon@avistacorp.com if you have any questions.

UPDATE !!! As of 8/21/2012

On 8/28/12, Avista's OASIS website will be unavailable from 1515 to 1645 PPT due to OATI Private Cloud Migration. Please take necessary steps to reserve needed transmission prior to the outage. Emergency Transmission Service Requests will be accepted verbally by calling 509-495-4105. A reminder of this outage will be posted on the WECC Net the day of the outage.

Thank you.

UPDATE !!! As of 6/26/2012

Today, 6/26/12, Avista's OASIS website will be down from 1515 to 1645 PPT due to OATI Maintenance. Please take necessary steps to reserve needed transmission prior to the outage. We will be posting a message on WECC Net as well, but will send another message when the outage is complete and our website is available.

Thank you.

UPDATE !!! As of 6/4/2012

Please take notice that Avista is filing revised ancillary service schedules with FERC.

Avista is filing: (i) revised Schedules 4 and 9 to change the Mid-C index used in the Hourly Pricing Proxy, (ii) revised Schedules 5 and 6 to clarify that operating reserves apply to generation exported from the Avista Control Area, and (iii) a new Schedule 3-A – Generator Regulation and Frequency Response Service.

Any questions regarding this filing may be directed to transmission.services@avistacorp.com.

A copy of this filing may be found in the "FERC Filings" folder.

UPDATE !!! As of 5/30/2012

FERC Order 1000 - Avista is coordinating its Order 1000 compliance efforts through its membership in ColumbiaGrid. The next stakeholder meeting updating these compliance efforts is on June 12, 2012 from 10:00 AM to 4:00 PM at ColumbiaGrid's office at 8338 NE Alderwood Road, Suite 140, Portland, OR 97220. Phone and internet access will be provided. Further information can be found at ColumbiaGrid's website at:

<http://www.columbiagrid.org/1000-calendar.cfm>

UPDATE !!! As of 4/4/2012

On April 10, 2012 from 16:15 to 17:45, OATI's Private Cloud Migration will disable Avista Transmission's Webtrans software.

During this time Webtag, WIT, WebOASIS, and WebSAS will all be available. However, Webtrans is where TSR and Tag validations occur and we are asking that PSE's submit as many of their TSR's and Tags, if possible, prior to the start time of the outage as we will be in a manual validation mode.

We will monitor TSR's and Tags via WebOASIS and Webtag until the migration is complete. A notification will be sent before and after the migration via the WECC.net.

Should you have any questions or concerns, please do not hesitate to contact the OASIS Desk at 509-495-4819 or via email at OASIS@avistacorp.com.
