

**FORM FOR  
DESIGNATION OF  
NETWORK RESOURCES**

As stated in Section 30.7 of Tariff, the Transmission Customer must demonstrate that it owns or has committed to purchase generation pursuant to an executed contract in order to designate a Network Resource. Alternatively, the Transmission Customer may establish that execution of a contract is contingent upon the availability of Network Integration Transmission Service under Part III of the Tariff. This form signifies that a valid contract has been executed or that a valid contract is contingent ONLY upon the availability of Transmission Service.
