

OASIS Status Values

(From S&CP Version 1.4 dated July 26, 2000)

Queued – Initial status assigned by Transmission Services Information Provider (TSIP) on “customer service purchase request”.

Invalid – Assigned by TSIP or Provider indicating an invalid field in the request, such as improper POR, POD, source, sink etc. (Final State)

Received – Assigned by the Provider or Seller to acknowledge Queued requests and indicate the service request is being evaluated, including for completing the required ancillary services.

Study – Assigned by the Provider or Seller to indicate some level of study is required or being performed to evaluate the service request.

Refused – Assigned by the Provider or Seller to indicate service request has been denied due to lack of availability of transmission capability. (Final State)

Counteroffer – Assigned by Provider or Seller to indicate that a new Offer Price is being proposed or that Capacity Granted is less than Capacity Requested.

Rebid – Assigned by Customer to indicate that a new Bid Price is being proposed.

Superseded – Assigned by Provider or Seller when a request which has not yet been confirmed is preempted by another reservation request. (Final State)

Accepted – Assigned by Provider or Seller to indicate the service request at the designated Offer Price and Capacity Granted has been approved/accepted. If the reservation request was submitted Preconfirmed and capacity Granted is equal to Capacity Requested, the OASIS Node shall immediately set the reservation status to Confirmed. Depending upon the type of ancillary service required, the seller may or may not require all ancillary service reservations to be completed before accepting a request.

Declined – Assigned by the Provider or Seller to indicate that the terms and conditions, such as the Bid Price, are unacceptable and that negotiations are terminated or that contractual terms and conditions have not been met. (Final State)

Confirmed – Assigned by Customer in response to Provider or Seller posting “Accepted” status, to confirm service. Once a request has been “Confirmed”, a transmission service reservation exists. (Final State, unless overridden by Displaced or Annulled state”).

Withdrawn – Assigned by Customer at any point in request evaluation to withdraw the request from any further action. (Final State)

Displaced – Assigned by Provider or Seller when a “Confirmed” reservation from a Customer is displaced by a higher priority reservation and the Customer is not offered or has not exercised right of first refusal (i.e. refused to match terms of new request). (Final State)

Annulled – Assigned by Provider or Seller when, by mutual agreement with the Customer, a confirmed reservation is to be voided. (Final State)

Retracted – Assigned by Provider or Seller when the Customer fails to confirm or withdraw the request within the required time period. (Final State).
