

Duke Energy Carolinas Duke Energy Progress Quarterly Stakeholder Meeting

1st Quarter 2021

Thursday, March 18, 2021

2:00 p.m. EDT

Agenda

- Pro Tips – How To..
- Roundtable
- Wrap-up

Pro Tips – How To..

Concomitant Requests

Requirements:

- Must have a Confirmed DNR

Benefits:

- Allows Customer to simultaneously replace an existing DNR with:
 - Another DNR
 - Secondary Network source
 - PTP service (Firm or Non-Firm)
- Queue time is considered simultaneously submitted. (No need to worry about terminating a resource and worrying about another customer getting in the queue and taking your released capacity before a secondary request is made.)
- Denial/Withdrawal of one request shall result in the denial of both. (If you cannot get what you want, the termination also gets annulled)

Pro Tips – How To..

Concomitant Requests

OASIS action(s)

- From NITS Request Summary or NITS Application Summary
 - Select “New Concomitant”
 - Complete Terminate NITS DNR template as normal.

- Select the New Request on the same template (Add NITS DNR, Add Secondary Network, or Add PTP)
- Complete NITS DNR, Secondary Network, or PTP template as normal.

Pro Tip: keep the new request date/time/MW within or the same as the date/time/MW of the termination

Roundtable

Current Issues

- Discuss any topics that customers want to review today

Customer Suggested Topics for Future meetings

- Identify any topics of discussion for future meetings

Wrap-up

Next Quarterly Stakeholder Meeting

– *Thursday, June 10 – 2 p.m. to 3:30 p.m. ET*

Questions and Comments
