

Capacity Benefit Margin (CBM) Defining Statement

Duke Energy Carolinas Transmission Service Provider (TSP) has not defined a need to maintain CBM on any of its interfaces in the Operating, Planning, or Study Horizons. As such, the importing and exporting CBM on all interfaces is set to zero. When CBM is not used, NERC Reliability Standard MOD-004 does not require a TSP to have a Capacity Benefit Margin Implementation Document (CBMID).

DOCUMENT REVISION HISTORY

Date	Version	Change By	Pages or Sections Revised and Description
03/31/2011	0	Tony Hunziker	Initial version of Capacity Benefit Margin (CBM) Defining Statement
12/17/2013	1	Linwood Ross	Updated Duke Energy logo
