

Western Area Power Administration (WAPA) Currently Allowed Digital Signature Methods

WAPA's Authorized Digital Signatures: WAPA currently uses Adobe Sign for Digital Signatures and as noted in its Digital Signatures Requirements Business Practice. WAPA will accept only certain types of Digital Signatures from Transmission or Interconnection Customers as a valid Digital Signature for OATT agreements and other applicable documents, unless other prior written approval from WAPA is granted.

The currently allowed Digital Signature methods are as follows:

1. Adobe Sign
2. Adobe E-Sign
3. DocuSign
