April 16, 2024

UPDATE: The scheduled testing has been successfully completed. Maintenance pigging will be completed 4/17 with minor maintenance flows anticipated through the day. Some customers may have full availability on 4/18. KB Pipeline is expected to return to full service 4/19, unless notice is lifted earlier.

April 12, 2024

On April 13, 2024, the KB pipeline will be conducting a hydrostatic test on the system for integrity and verification purposes. This work will require a 100% shutdown of the pipeline to all delivery points, starting at 8am.

During this project, there is a planned outage for this work. It is expected that the job will be complete by April 18, 2024, at 11:59pm. If completed earlier, the critical notice will be lifted, and all delivery point customers will be notified.

If you have questions, please contact Justin Mills at 503-464-2957.

March 6, 2024

UPDATE: Maintenance work completed approximately 15:00. The pipeline is back to normal operations.

Today on March 6, 2024, starting at 9:30, the KB pipeline will be conducting unscheduled maintenance. This work will require shutting down flow to NW Natural's North Mist Storage and Portland General's Beaver Plant. The interruption is estimated to last for 8 hours. The parties impacted will be notified when the pipeline is back to normal operations and this critical notice will be updated.

If you have questions, please contact Justin Mills at 503-464-2957.
