KB pipeline is planning a utility tool run for the pipeline from 04/19/2024, to conduct maintenance on the system. There will be no gas delivery available to Port Westward facility during that time, from KB Pipeline.

It is expected that the job will be complete by 04/19/2024, and a critical notice will be shared closer to the start date. If there are any changes to this plan, a separate notice will be added to the website.
